DETAILED ACTION

1. This action is in response to applicant's amendment received on September 16, 2005.
2. Applicant's cancellation of claims 11, 12 and 20 is acknowledged.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David A. Divine on November 10, 2005.

4. The application has been amended as follows:

Claim 1 has been replaced by the following:

A powder driven tool comprising:

a housing including a powder cartridge and piston within a barrel; and

a guide member attached to the barrel and cradling a support device, the guide member including a wall portion having a thickness greater than other portions of the guide member, the wall portion defining a cavity having an oblong perimeter to accommodate the support device,

wherein ignition of the powder cartridge causes the piston to move within the barrel and drive the support device in an axial direction, and the wall portion resists barrel climb as the support device is driven into an object, and

wherein the guide member includes a slot formed in a side of the cavity and extending in the axial direction for engaging the support device so that the support device is driven in a straight direction.

Claim 2 has been canceled.

Claim 3, line 1, the recitation "The tool of claim 2" has been changed to --The tool of claim 1--.

Claims 13 and 14 have been canceled.

Claim 21, lines 1-3, the recitation "a slot formed in a side of the cavity ... the support device is driven in a straight direction, and" has been deleted.

5. The following is an examiner's statement of reasons for allowance:

The guide member includes a slot formed in a side of the cavity and extending in the axial direction for engaging the support device so that the support device is driven in a straight direction. The combination as set forth in the claims are not disclosed, taught, or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thanh K. Truong whose telephone number is 571-272-4472. The examiner can normally be reached on Mon-Thru 8:00AM - 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi Rada can be reached on 571-272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
